Seminar on “Homi Bhabha: Father of Indian Nuclear Programme”

Date: 17-04-2018

Participants: 8

Ms. V B Vansola, Department of Physics, Sir P. T. Sarvajanik College of Science, Surat

Brief Report:

Another Indian stalwart is Dr. Homi Jahangir Bahabha by whose name we have the world famous institute named BARC (Bhabha Atomic Research Center). Ms. Vibha Vansola in her talk described the biography of this towering personality, his childhood days and schooling, his higher education and finally his contribution in the field of Nuclear Physics and its development in our country. We salute to this man for his inputs for the very place we are enjoying today the elite club of countries which is nuclear super power.
