3:00 pm
:Venue:
Room no. - 12
Sir P T Sarvajani College of Science,
Surat

Brief Report:

Brief Report: The first and the only Indian scientist to win a Nobel Prize in any branch of science till now has been Sir C. V. Raman. So the series Founders of Science, will remain incomplete without a talk on him. Ms. Priyanka Mule described his life-sketch, the turning point in his life, his confidence and humbleness. He was the person to 'find out' Dr. Vikram Sarabhai, the pioneer of Indian Space Program and ISRO.
