Participants: 6

Ms. Krishna Joshi, Department of Physics, Sir P. T. Sarvajanik College of Science, Surat

## Brief Report:

Nikola Tesla is remembered for his contributions to the design of modern AC supply system and its management. Ms. Krishna Joshi talked about his early life, his studies and his achievements. She mentioned that Tesla performed numerous experiments during the first two decades of the twentieth century and had a series of inventions which include induction motor, Tesla coil, wireless lighting etc. He had acknowledged that he became interested in demonstration of electricity by his Physics professor. Actually he had completed his four years term of graduation within three years. So his greatness has been still shining since then.
