## Brief Report:

In continuation of Lecture series “*Founders of Science*” Ms. Nisha Patel Delivered a talk on “Stephen Hawking: The Peculiar Physicist Turned Global Icon” on 24<sup>th</sup> April, 2018. In the starting she mentioned why it is important to discuss life of Stephen Hawking? The answer was...his life has been characterised by unparalleled intellectual achievement and physical insight, as well as tremendous courage in the face of many challenges; he offers a singular inspiration to us all. The biographic sketch of Stephen Hawking was presented. She briefly discussed about his research work on the Universe and blackholes. At the last she summarized with awards and recognition she received during his life.
