

Seminar on “Interdependence of Science & Technology”

Date: 24-09-2019

Participants: 80

Dr. C. M. Nautiyal, Scientist Radiocarbon lab., Lucknow

SARVAJANIK COLLEGE OF ENGINEERING AND TECHNOLOGY
&
SIR P.T. SARVAJANIK COLLEGE OF SCIENCE

PHYSICS DEPARTMENT

INTERACTIVE TALK

**INTERDEPENDENCE
OF
SCIENCE AND TECHNOLOGY**

24TH SEPTEMBER 2019

Tara Moti Hall , Sir P. T. Sarvajanic
College of Science , Athwalines , Surat

Dr. C. M. Nautiyal
Consultant, Indian National Science academy
(New Delhi),Former Scientist-in-charge of
Radiocarbon Lab(Lucknow), Scientist by
profession and active science communication
trainer, Science writer, and Broadcaster for
TV, Radio and Print media, Former jury
member of the National Science Film Festival.

Eminent Speaker
DR. C. M. NAUTIYAL

11:00 AM

REGISTRATION

Seminar on “Interdependence of Science & Technology”

Date: 24-09-2019

Participants: 80

Dr. C. M. Nautiyal, Scientist Radiocarbon lab.

Brief Report:

Brief Report: 21st century has witnessed tremendous technological revolution, thanks to the advancements and the understanding of the fundamental concepts of basic sciences. Dr. C. M. Nautiyal in his talk, stressed the same by saying that science and technology cannot be isolated from each other. There is a very close interdependence between them. Technology cannot grow without the ideas of basic sciences and the further development of the understanding of science is not possible without technology. The program was organized in collaboration with SCET, Surat.
