Seminar on “Physics Lecture - Demo Programme”

Date:10-02-2020

Participants: 139

Dr. T. R. Ananthakrishnan, IAPT, RC-07

Brief Report:

Brief Report: Dr. T. R. Ananthakrishnan is a known figure who gives demonstration of experiments of physics across the places of the country. He was invited for the “Physics Lecture - Demo Programme” in collaboration with IAPT RC - 07. He demonstrated experiments on the basic principles of concepts such as linear momentum, angular momentum, force, energy, electric field, magnetic field pressure, oscillations, Newton’s cradle etc. The attendees also contributed by giving a helping hand during the demonstration of the experiments. They were quite delighted to be a part of the program. There was a great deal of interaction too.
